WHIG RATIFICATION MEETING.

A MEETING OF THE WHIG CITIZENS OF SAN FRANCISCO will be held on FRIDAY EVENING, at California Exchange, corner of Clay and Montgomery streets, at 7 1/2 o'clock, to ratify the nominations made at the Whig City Convention.
 A number of our most popular speakers will address the meeting, and addresses will be made by the various candidates placed in nomination.
 The public are respectfully invited to be present.
 By order of the Whig General Committee.
 JAS. K. WAINWRIGHT, Chairman.
 R. B. HAMPTON, Sec'y. ap17

Whig Ratification Meeting.

We hope to see at the Whig Ratification Meeting, called for this evening at the California Exchange, attended by every Whig in San Francisco, as well as by members of other political organizations. Several good speakers will be present, and address the meeting, and among them some of the candidates in nomination for city officers. Let all go and hear them and judge for themselves.

The time between the present and the day of the election is short, and every Whig should be up and doing. Each and all have a duty to perform, that should be discharged faithfully and promptly. Let our Atlantic friends see that the political watch-fires which have burned so brightly among the scenes of former associations, are not permitted to slumber on the Pacific coast; that the old war-cry is still heard and reiterated; that distance has not weakened an abiding confidence in the great principles which have been so long inscribed upon the Whig banner. One effective blow is to be struck at the municipal election so near at hand, and the effect for good or evil will be felt throughout the State.

The Whigs of San Francisco, then, should make a demonstration this evening, that shall manifest a determination to maintain their political organization, and to elect the entire ticket already presented for their suffrages.

Since the above was in type, we have understood that the meeting this evening will be addressed by Judge TOMPKINS, of Mississippi, Gen. JAMES WILLSON, Col. JAMES K. LAVIS, Col. MUDD, H. T. HUGGINS, Esq., and several others, whose names have escaped us.

COSTS OF CITY LITIGATION.—We are surprised to learn that the Finance Committee of the Common Council have hesitated to audit Mr. DWINELLE's bill as counsel for the city in the first suits. The sum claimed is only 2 1/2 per cent on the amount really disposed of by the decision made in these suits, and is payable in scrip at that, realizing only \$10,000 at the current rates. We know of individuals who have paid more than \$25,000, in cash, during the past year, for the litigation of much smaller interests, and surely the city can afford to pay, in scrip, what others pay in cash. We hope the Common Council will take up Mr. Dwinelle's and Judge Heydenfeldt's bills, and not hesitate to deal justly and liberally with gentlemen who have devoted their talents with such signal success to the interests of the city.

NOMINATION OF COUNTY JUDGE.—A call is published by the officers of the Whig General Committee, in this morning's paper, upon the Whigs residing out of the city limits, but within the county, to meet at the "Abbey," on the San Jose road, on Saturday evening, for the purpose of electing three delegates to meet the present City-Nominating Convention, for the purpose of electing a candidate for County Judge, in place of Hon. R. N. MORRISON, resigned. The latter meeting is to be held in this city on Monday evening next.

OUR CORPORATE LIMITS.—A petition was presented to the Assembly from residents at the Mission, to have the corporate limits of the city altered, which was referred to a committee, who reported upon it, and recommended its indefinite postponement on Wednesday. So we are to remain as we are.

At a joint meeting of the Senate and Assembly, on Wednesday, Dr. BAILEY, was unanimously elected Visiting Physician of the Sacramento Hospital, and Dr. G. W. WILLIAMS Resident Physician.

The New Revenue Bill.

The new bill for the collection and disbursement of the public revenue, passed the Assembly on Saturday last, if we mistake not, but has not yet been definitely acted upon by the Senate. One of the provisions of the bill, imposes upon the Sheriffs of the counties, the duty of collecting the taxes, instead of the County Treasurer, as formerly. We regard this provision as exceedingly unwise. The Sheriffs of the larger counties of the State have already enough to do, in the regular routine of business attaching to their offices, to keep them employed, if the duties be faithfully discharged. In addition to this, the fees of these officers are large, affording an income which should be perfectly satisfactory, and yet the provisions of the bill alluded to, would give them fees to the amount of several thousands more, yearly, and take from the County Treasurer almost the only source of profit attaching to his office, making it worth hardly enough to induce any business man to hold the position.

With the exception of this provision, we see nothing in the bill that is particularly objectionable. It is very well framed, and contains less imperfections than most bills of similar character. But we cannot but believe that the Legislature will better subserve the public interest by striking out the provision alluded to. In an article upon the subject, the San Jose Journal remarks:

"We cannot but look at this provision as an attempt—whether intentional or not—to virtually abolish the necessary and responsible office of County Treasurer by the Sheriffs, who are to be collected by the Sheriffs, they must employ an additional number of deputies to do the work. The distinction, then, in the change would be, in effect, the taking on to the tail of the patronage of Sheriffs—whose privileges are already sufficiently large enough for all practical purposes—a host of dependents, who would swallow up the salary legitimately belonging to the County Treasurers, without having performed a tithe of their duties, and which would leave those officers unremunerated."

News from the San Joaquin Valley.

Todd & Co. put us in possession of Stockton papers of the 16th inst.

The Times contains almost a column of announcements of candidates for various offices, and amongst the number seven candidates for Harbor Master. Stockton has almost as many ambitious gentlemen as "Frisco."

The Times says the Stocktonians are "particular thunder" on whisky! They certainly do possess a great flow of spirits.

THE RUSH TO THE SOUTH.—The tide of the population is still setting in to the Southern mining region. There are seven steamboats running between San Francisco and Stockton, and each trip they make to this place, they are laden to the guards with passengers and freight. In the meantime, from the lower country, the Mexicans are pouring in by the thousands. From the Northern mining region, large numbers are also making their way towards our placers, notwithstanding the attempt of the Sacramento Times to dam the stream.—Times.

We have received from a correspondent a few lines concerning an affray at Campo Seco. It appears that several Irishmen were engaged in a quarrel among themselves, when a person of the name of Curtis interfered; they immediately commenced beating him, and one of his companions then knocked one of the Irishmen senseless on the ground. Several were severely injured.

We have also received the following intelligence:
 At Wood's Creek the miners are doing very well, making generally from six to twenty dollars per day.

At Bush House bar, one mile below the junction of Sullivan's, a company of seven have been making from eight to sixteen dollars per day washing top dirt and screenings. They have got enough good ground to keep them washing seven months.—Times.

DEDICATION.—A neat and commodious church has recently been erected by Dr. BORING, on the corner of Clay and Powell streets, which will be dedicated on Sunday next. In the morning a sermon will be preached by Rev. Mr. BAIGES, of Sacramento; and at half past 3 o'clock, by Rev. Mr. WILLIAMS, and in the evening by Rev. Mr. WHEELER.

Nothing gives greater proof of our advancement in morals, than the erection of churches and school houses.

THREATS AGAINST LIFE.—Joseph Goldstein, who keeps a store on Washington street, complained yesterday, that Charles Goldstein had attempted to oust him from his premises, and in the altercation had threatened to take his life. The complainant is of opinion that Charles Goldstein has bought a knife for the purpose of carrying his threat into execution, and that unless he is restrained by law, something serious might happen.

COMMON COUNCIL.—This body held a special meeting at the City Hall, last evening, for the purpose of authorizing the Mayor to issue his proclamation for the charter election. A resolution to that effect was introduced by Ald. Gibbs, and unanimously adopted. The places of holding the meetings, and the Inspectors of the election, have not yet been designated. It will probably be done this evening.

KNOCKED DOWN.—The Captain of the ship Exchange complained yesterday before the Recorder, that he was knocked down on the preceding evening, on Long Wharf, by Elias Anderson, carpenter of the vessel. The blow was severe, but not sufficient to cause much injury. A warrant was immediately issued.

THE MAIL STEAMER.—We shall pretty confidently look for the arrival of the steamer California, to-morrow, with two weeks later intelligence from the Atlantic side.

THANKS.—We were yesterday indebted to Mr. H. N. SQUIRE, the gentlemanly Purser of the Goliah, for a list of passengers, memoranda, &c.

News from Oregon.

By the arrival of the steamer Goliah yesterday, we were put in possession of full files of Oregon papers by Todd & Co. to the 10th instant, and by Gregory to the 12th. The Goliah came down in 65 hours from Astoria.

We are glad to perceive that the Oregonian has donned a new dress, and has been much enlarged and improved in appearance. DAYER is going ahead upon his customary steamboat principle.

Dr. John McLaughlin has been elected Mayor of Oregon City.

The mail steamer Columbia crossed the bar in the night, on her last trip up.

OREGON COAL.—The coal recently found has been tried on one of the steamers, and is pronounced to be of the first quality of stone coal.

Arrangements have been perfected for the immediate erection of a steam flouring mill at Oregon City.

TRIAL OF KEAN.—Judge Strong has appointed a special term of the District Court, to commence on Wednesday next, the 22d instant, for the trial of Wm. Kean, charged with the murder of William Cook. It seems the Oregonians are determined to have speedy justice, but they leave the case in the hands of the legal tribunals of the Territory.

MILITARY BALL.—The gentlemen of Portland intend to give the officers of the regiment of mounted riflemen a military ball on Wednesday next, prior to the departure of that regiment to the Atlantic States.

TO BE HANGED.—Wm. Kendall, who killed Wm. Hamilton near Salem, Oregon, is to be hanged at Salem to-day.

AHEAD OF THE MAIL.—Gregory & Co. have put us in possession of New York papers to March 1st, two days later than by the mail. These gentlemen belong to the fast line, always ahead of competitors in their business arrangements.—Oregonian.

The new steamer Willamette is in a forward state of completion.

The troops were to leave Oregon about the 1st of next month.

ANOTHER RIOT.—On Thursday a serious and brutal riot again disgraced our city. Several of the hands from the steamer Goliah became intoxicated, and commenced a general fight on shore among themselves, which resulted in the biting off a piece of the nose of George Robbin, coal heaver, who in return, stabbed with a dirk knife Henry Wood, fireman, in several places. Robbin has been arrested, and Wood is still alive, but there is little hope of his recovery. This is another evidence of the bad effects of drunkenness. Oregonian.

At a meeting of the citizens of Yamhill county, Gen. Joseph Lane was unanimously nominated for Congress.

The Milwaukee Star, the State printer's paper, had made its appearance. It is a fine looking sheet.

CENSUS COMPLETED.—We learn from Mr. Daniel O'Neil, assistant Marshal, that the census of Oregon, just completed, amounts in the aggregate to 13,823 persons. It is estimated that there are about 2,000 of the last immigration not included in the above. Spectator.

STEAMBOAT ABOVE THE FALLS.—Our enterprising fellow-citizens, Messrs. Hedges & Barlow, have completed their arrangements for the construction of a steamer to run on the Willamette above the falls at this place, and will set about the work immediately. They expect to have it running early in August next. Her dimensions are as follows: Length on the main deck, one hundred and twenty feet; beam twenty-three feet; depth of hold four feet. She is to be provided with an upper cabin, berth, &c., for the accommodation of passengers, and is to be finished in good style. The estimated cost of her construction is \$32,000. Statesman.

Antonio Torres, for stealing four bundles of knives, from the store of J. Hastler, on California street, was found over to the Court of Sessions in the sum of \$500.

HOWARD ENGINE COMPANY.—We learn that this efficient company will in a few days take a pleasure excursion to Sacramento. They will in all probability take their engine with them, and test its powers with those of their brethren of that city. The Company will no doubt meet with a glorious and cordial reception, and enjoy themselves to their heart's content.

ASSAULT.—Peter Gerth, mate of the Russian ship Sacramento, on Wednesday evening, was assaulted on Long Wharf, by two seamen belonging to the same vessel. He was struck from behind on the head and felled to the earth. He did not, however, receive great injury. A warrant was issued for the apprehension of the assailants.

ARRESTED.—Two persons were yesterday arrested on the complaint of H. C. May, who avers that he is afraid that his life is in danger from their acts. Their names are Geo. Kenney and Henry Eustis, and are deck hands on board the steamer Mariposa.

A FRIEND OF THE LAMENTED HOOD, on whom the punster's mantle seems to have fallen, says of him, "Poor Hood!—died of pure generosity! to gratify the undertaker, who wished to urn a lively Hood!"

A REVOLUTIONARY DINNER.—While we can sit down at the Union, and other celebrated hotels, to a dinner of unsurpassed variety and luxury, with the choicest dishes and the richest wines, it may be well to look back at the homely fare of which the soldiers and patriots of the revolutionary war were compelled to partake. The following pleasant letter from General Washington to Dr. Cochran, the director of hospitals, will be read with interest at this, or at any time, as tending to show the homely fare of his table:

"WEST POINT, Aug. 16, 1779.
 "DEAR DOCTOR—I have asked Mrs. Cochran and Mrs. Livingston to dine with me to-morrow, and ought I not to apprise you of their fate? As I hate deception, even when imagination is concerned, I will. It is needless to premise that my table is large enough to hold the ladies. Of this they had ocular demonstration yesterday. To say how it is usually covered is rather more essential—and this is the purport of my letter.

"Since my arrival at this happy spot we have had a ham, sometimes a shoulder of bacon, to grace the head of the table; a piece of roast beef adorns the foot, and a small dish of green beans, almost imperceptible, decorates the centre. When the cook has a mind to cut a figure, and this I presume he will attempt to-morrow, we have two beef-steak pies, or dishes of crabs, in addition, one on each side of the centre dish, dividing the space and reducing the distance between dish and dish to about six feet—which, without them, would be twelve feet apart. Of late he has had the surprising luck to discover that apples will make pies; and it is a question if, amidst the violence of his efforts, we do not get one of apples, instead of having one of beef. If the ladies can put up with such entertainment, and submit to partake of it on plates once they, but now iron, and not become so by the labor of scouring, I shall be happy to see them. Dear Sir, yours,
 "GEORGE WASHINGTON."

GEORGE ENDICOTT, Esq., has declined the nomination for Alderman of the Seventh Ward, tendered him by both Whigs and Independents. We regret this, as he would have made an excellent member of the Board.

COMMITTED.—Antonio Torres who stole four bundles of knives from the store of J. Hastler, on California street, was yesterday committed to await his trial at the Court of Sessions. His first speculation in cutlery did not prove a very profitable one.

MAP OF THE GOLD REGIONS.—We should have stated yesterday morning, in our notice of the map of the gold regions, by Mr. Gibbs, that the agents in this city were Burgess, Gilbert & Still.

DESERTED.—The Captain of the American ship Remittance, made a complaint yesterday, that a sailor belonging to the ship had deserted. The deserter has not yet been arrested.

MORE BANKING HOUSES.—Two large Banking Houses of Sacramento, are about starting branches at Marysville.

WE are requested to state, that James Gallagher, who was fined for a breach of the peace, is not a Clark's Point boatman.

BY LAST NIGHT'S BOAT.

News from the Sacramento Valley.

J. W. Gregory and Freeman & Co. came in neck-and-neck with Sacramento papers last night.

Rev. Joshua Wilson, a Methodist minister, died at Marysville on Wednesday.

The "Miners Ticket" was successful at Nevada on Monday last. Moses F. Hoyt was elected Mayor.

The discovery of gold in Shasta Valley, has drawn a large crowd of miners.

A man named Merady Swan, formerly of Missouri, was shot in his cabin at the Lower Springs, two miles this side of Shasta city, one night last week. The Indians slipped up to his cabin at night and shot him through a crack in the door, whilst he was sitting at the table.

ATTACKED BY THE INDIANS.—A party of miners who were encamped at Dry Hollow, between Red Bluffs and Cottonwood, had a number of articles stolen from them by the Indians. They started in pursuit, when one of them who had no arms came up to a party of these savages, and the poor miner was seized, and after receiving some rough treatment, being considerably scratched, he made good his retreat. [Transcript.]

Tobias Kadel was arrested in Sacramento for attempting the life of Sebree Briggs, living about eight miles from that city. He was bound over.

Whig Nominations.

The Delegates to the Whig Nominating Convention met last evening at the California Engine House, and made the following nominations:
Recorder's Clerk.—G. L. PIERSON.
Assessor.—WARREN C. NORRIS.
GEORGE FRANK LEMON.
 The meeting adjourned subject to the call of the Chairman.

COOMES' DAGUERREAN GALLERY.—This beautiful gallery on the corner of Montgomery and Clay streets, is certainly one of the finest establishments that we have seen. Mr. Combes is an artist of scientific acquirements, and has every facility to execute his work in the best style. The different portraits and landscapes that he has taken, and which can be seen at his gallery, are sufficient evidence of his skill as an artist. He is prepared to take portraits of all sizes from a large frame, to one so small as to set in a ring; in all kinds of weather, and at all times.

RARE CURIOSITY.—The editor of the Honolulu (Sandwich Island) Friend has been presented with an English Bible, printed in the year 1590, and translated from the Latin by Beza, who died in 1605, aged eighty-six. The reprint on the title-page of the New Testament is as follows:

THE NEW TESTAMENT OF OUR LORD JESUS CHRIST, Translated out of Greeke by Theod. Beza: With brief Summaries and expositions upon the hard places by the said Author. London: Printed by I. Iohnson. 1605.
 Together with the Annotations of F. Junius upon the Revelation of S. IOHN.
 IMPRINTED AT LONDON by the Deputies of Christopher Barker, Printers to the Queenes most Excellent Majesty.
 1599.

This copy anticipates by several years the translation made by King James's authority, and was published twenty years prior to the landing of the Pilgrims. Such a curiosity should not be allowed to moulder among the dusky Sandwich Islanders, but should be transferred to some one of the large libraries in the Atlantic cities, where it would meet the inspection of hundreds who know how to appreciate a literary windfall.

It has been discovered that Powers's "Greek Slave" is not a fugitive.

Commercial.

THURSDAY EVENING, April 17, 1851.
 Trade to-day has been in quite a depressed condition. Sales have been to a very small extent, and prices remain about the same. There has been a large sale of Brandy, but no other transaction of note. Business at Stockton also languishes, as will be seen by the following from the Times:

Wednesday, April 16, 1851.
 We have but few remarks as to the state of our market for the past three days. Trade has somewhat slackened, and large arrivals of goods have been pouring in, in quantities greater than the demands. Potatoes are quite plenty again, and are sold readily at 6 1/2 cents, as per quality. Barley sells for 6 1/2 cents. Flour can be bought at \$5 50/100. The last two articles are sure to go down very low.
 Hour: \$5 10/100; clear Pork, in bbls, \$22; do in hf dr, \$12; mutton do in bbls, \$18; do in hf dr, \$10; Coffee, 16/100; Sugars, 6 1/2/100; Teas, 25/40/100; Pilot Bread, 12/100; Soap, 15/20/100; spermacandles,
